H.B.Gundappa Gowda, Esq., B.A., B.L.,
Minister for Local Self
Government & Public Health,
B A N G A L O R E.

Sir,

I wish to bring to your kind notice that under Notification No. W.1370--W.91-43-8, dated the 15th December 1943, no cattle shall be slaughtered except under a permit issued in accordance with that Order. Clause 2 of the said Order and the Form of Permit given in it requires that particulars should be given about the age, sex, description and condition of health of each animal taken for slaughter. This wholesome rule is intended to prevent substitution of cattle after a permit is obtained.

It is a matter for regret that Veterinary Inspectors have not been following the requirements of this Government Order, nor giving permits for slaughter in the proper form prescribed. I send herewith, for your information, the ~~originals~~ Copies of two Slaughter Permits issued by the Veterinary Inspector, Mysore, which may be taken as samples of permits that are being issued by most of the Veterinary Inspectors. The permit merely certified that so many cattle were examined and are fit for slaughter, but does not give any particulars of the animals. There is nothing to show that the animals which were taken for slaughter are the animals that were produced before the Veterinary Inspector, and the Police have no means as the permit is now worded to ascertain whether the number of animals are covered by the permit.

It is difficult to understand why the Veterinary Inspectors are ignoring the Government Order and not giving the permits in the prescribed form.

I request that suitable notice may be taken of the Veterinary Inspectors who have not been following the Government Order and that strict instructions may be issued to all the Veterinary Inspectors to strictly follow the form prescribed.

Sir,
Yours obediently,
Hon. Secretary
